

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF NEW YORK

----- X
WILLIAM G. GIBBONS, : Index No.: 07 CV 2801

Plaintiff, : (MGC/HBP)

- against - :

LEONARD FRONTON, D.O., STEVEN FEIN, M.D., : **AFFIRMATION IN**
STERLING MEDICAL CORPORATION, DEPARTMENT : **OPPOSITION**
OF VETERANS AFFAIRS and THE UNITED STATES OF:
AMERICA, :

Defendants. :
----- X

Michael J. Gudzy, an attorney duly licensed to practice law in the State of New York, hereby affirms the following to be true, under penalty of perjury and pursuant to 28 U.S.C. §1746:

1. I am associated with the law firm of WILSON, ELSER, MOSKOWITZ, EDELMAN & DICKER LLP, attorneys of record for defendants STERLING MEDICAL ASSOCIATES (s/h/a STERLING MEDICAL CORPORATION), LEONARD FRONTON, D.O. and STEVEN FINE, M.D. (s/h/a STEVEN FEIN, M.D.) As such, I am fully familiar with the facts and circumstances surrounding this action.

2. We are in receipt of the declaration of Allison D. Penn, Esq., in support of the motion to dismiss by co-defendant DEPARTMENT OF VETERANS AFFAIRS ("VA") and UNITED STATES OF AMERICA. This affirmation is respectfully submitted in opposition.

3. This is an action for medical malpractice arising out of plaintiff's treatment at a VA clinic in Deerfield Beach, Florida. (Penn Declaration, Exhibits "A" and "B"). The plaintiff

was seen at the clinic multiple times between November 21, 2001 and September 9, 2004. (Penn Declaration, Exhibit "B", ¶32.) Plaintiff alleges that the physicians at the clinic failed to diagnose his prostate cancer. Id.

4. Co-defendants request dismissal on the grounds that the VA clinic was operated by STERLING MEDICAL ASSOCIATES; that DR. FINE and DR. FRONTON were employees of STERLING; that STERLING was an independent contractor; and that the Federal Tort Claims Act bars any vicarious liability claims against the government when the alleged negligence was by an independent contractor.

5. The plaintiff's medical records, however, show that he was repeatedly seen by specialists at other facilities in the VA system. (A copy of the records of STERLING MEDICAL ASSOCIATES is attached as Exhibit "A"). These records also show that blood samples were sent to outside labs to test for prostate cancer. (Exhibit "A").

6. Co-defendant concedes that the UNITED STATES OF AMERICA, through the VA, would be liable for negligence "of any employee of the Government while acting within the scope of his office or employment." 26 U.S.C. §1346(b). The UNITED STATES also concedes that it would be liable if it exercised a sufficient degree of control over the physical performance of the work or the day-to-day operations of the facility. B&A Marine Co. v. American Foreign Shipping Co., 23 F.3d 709 (2nd Cir. 1994).

7. This case has just been commenced and no discovery has yet taken place. We do not know whether the specialists were VA employees; whether the outside labs were run directly by the VA; whether the technicians in the labs were VA employees; or whether there is other evidence of direct involvement by the VA. We do not know if discovery will show that the specialists should have made further inquiries into plaintiff's health, or if the labs misread the

PSA (prostate-specific antigen) tests. Since there has been no opportunity to explore these issues, co-defendant's motion should be denied as premature.

8. When considering a motion to dismiss pursuant to Fed.R.Civ.P. Rule 12(b)(6), the Court must accept the factual allegations of the complaint as true and must draw all reasonable inferences in favor of the plaintiff. Bernheim v. Litt, 79 F.3d 318, 321 (2nd Cir. 1996). A complaint may not be dismissed under Rule 12(b)(6) unless it appears beyond doubt that the plaintiff can prove no set of facts in support of his claim which would entitle him to relief. Id. (Internal citations omitted). It is premature to dismiss a case where substantial discovery is required. Streit v. Bushnell, 424 F.Supp. 633 (S.D.N.Y. 2006); Conrac Corp. v. American Telephone & Telegraph Co., 546 F.Supp. 429 (S.D.N.Y. 1982).

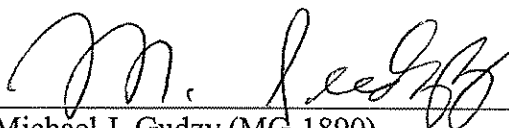

9. In light of the possibility of direct claims against the United States, and the lack of any discovery on the issue, it is respectfully requested that co-defendants' motion be denied.

10. I certify under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Dated: New York, New York
August 6, 2007

Respectfully submitted,

WILSON, ELSER, MOSKOWITZ, EDELMAN & DICKER LLP

LOCAL TITLE: GENERAL NOTE

STANDARD TITLE: INTERNAL MEDICINE NOTE

VISIT: 11/21/2001 10:00 DEERFIELD BEACH ALSTON

HISTORY & PHYSICAL

MC: Mr. William Gibbons is a 52-year-old gentleman, pleasant, who comes to the Deerfield Beach VA Clinic for evaluation and care.

HPI: The patient has had basal cell carcinoma of his skin before with removal. He states that the one on his left posterior back, over his shoulder blade, appears to have reappeared over the site of removal. He wishes to have this evaluated and possibly referred to dermatology for removal.

PMH:

1. Basal cell cancer in the past on multiple areas of the body with removal.

FAMHX: Negative for cancer, diabetes or heart disease. He has four children.

SOCHX: Does not smoke. Drinks maybe 5 drinks a week at most.

OCCHX: Works as a MRI tech.

Allergies and Adverse Reactions in VistA -

NKA.

MEDICATIONS: None.

Immunizations in VistA -

ROS -

General: Denies weight change, fever, chills, night sweats, or fatigue.

HEENT: Denies headaches, visual change, tinnitus, hearing loss, sore throat, or hoarseness.

Neck: Denies masses, swelling, stiffness, limitations in range of motion, or pain.

Cardio: No chest pain, no palpitations, no lower extremity edema.

Resp: No shortness of breath at rest or activity.

GI: No epigastric discomfort, no melena, no bowel pattern abnormality.

GU: No dysuria, no hematuria.

Musc/Skel: Full range of motion, no joint pain or arthritis.

Skin: Denies rash, mass or mole change.

Neuro: No unilateral motor or sensory loss, no central cognition issues.

The patient is alert and active.

Psych: Anxiety and depression; the patient shows no signs of anxiety, no signs of depression or suicidal behavior patterns.

Endocrine: No signs of diabetes, no signs of hypothyroidism, no

11/21/2001 08:53 ** CONTINUED FROM PREVIOUS PAGE **

polydipsia, no polyphagia associated with diabetes and no signs of loss of hair, thinning of hair, thickness of skin with hypothyroidism.
 Hem/Lymph: Denies easy bruising or bleeding disorder.
 Allergy/Immuno: Denies allergies or frequent infections.

Physical Exam - Vital Signs

Reveals a 52-year-old male, weight 200 lbs., height 67", blood pressure 120/90, temperature 98, respiratory rate 18, heart rate 68 regular. Pain scale 0 out of 10.
 Visual acuity: O.D. 20/40, O.S. 20/15, O.U. 20/15.
 General Appearance: No cyanosis, no pallor, no jaundice, no edema, afebrile.
 HEENT: PERRLA, EOMI, no icterus. Neck is supple, no JVD, no carotid bruit or thyromegaly.
 Respiratory: Breath sounds are clear, no rales or rhonchi.
 Cardiac: Heart sounds S1/S2, no murmur, regular rate and rhythm.
 Chest (Breasts): Symmetrical.
 Gastrointestinal: Soft, positive bowel sounds, no organomegaly.
 Rectal: Deferred.
 Genitourinary: Deferred.
 Lymphatic: Negative lymphatic survey.
 Musculoskeletal: Full range of motion.
 Skin: Examination of the left upper back, over the scapula, reveals an area of basal cell removal with reactivation of the basal cell at the site of removal.
 Neurologic: Intact.
 Motor sensory: Bilateral symmetrical, cranial nerves II-XII intact. Deep tendon reflexes are brisk and firm. Babinski is not present.
 Psychiatric/MH: Pleasant and cooperative. Maintains eye contact. Memory intact for immediate, recent, and remote events. Logical thought processes. Coherent and responsive throughout exam.

Assessment/Plan:

1. Basal cancer at the site of past removal over the left scapula. The patient will be referred to dermatology for removal.
2. Well care issues. PSA, TFT, CBC W/DIFF, SMAC-12, UA, and guaiac stool cards x 3 have been ordered. See back in 1 month for recheck of the basal cell cancer. The patient declines a Pneumovax and flu vaccine presently.

LOCAL TITLE: NURSING NOTE

STANDARD TITLE: NURSING NOTE

VISIT: 11/21/2001 10:00 DEERFIELD BEACH ALSTON

53 y/o male here to get established with clinic has questions about skin cancer. EKG performed as per Dr Fine.

CLINICAL REMINDER ACTIVITY

Advanced Directives Education:

Patient received oral and written information about advanced directives this visit, information included number of person to call if they would like to initiate an advanced directive.

Level of Understanding: Good

Alcohol Use Screen:

CAGE an ALCOHOL SCREENING INSTRUMENT

An alcohol screening test (CAGE) was negative (score=0).

1. Have you ever felt you should cut down on your drinking? No
2. Have people annoyed you by criticizing your drinking? No
3. Have you ever felt bad or guilty about your drinking? No
4. Have you ever had a drink first thing in the morning to steady your nerves or to get rid of a hangover (an eye opener)? No

DEPRESSION/MDD SCREEN:

During the past month, have you often been bothered by feeling down, depressed or hopeless ?

NO

During the past month, have you often been bothered by little interest of pleasure in doing things ?

NO

Patient was screened using the PRIME-MD 2 question Depression screen. Both questions were answered NO resulting in a negative/normal screening.

Fecal Occult Blood Test:

Patient was given FOBT cards x3 with instructions for their use and where to return them when completed.

FUNCTIONAL/PHYSICAL ACTIVITY SCREEN:

DO YOU OFTEN ASK PEOPLE TO REPEAT WHAT THEY ARE SAYING OR DO PEOPLE COMPLAIN YOU HAVE THE TV/RADIO TOO LOUD ?

DO YOU HAVE PROBLEMS READING ?

Follow up by provider for the above positive screens.

Hepatitis C Risk Assessment:

Patient had no risk factors for hep c.

Hypertension Education:

Patient had hypertension education at this encounter.

Level of Understanding: Good

Influenza Immunization:

Patient DECLINED to have the influenza immunization at this visit.
NUTRITIONAL SCREENING/EDUCATION:

Patient has BMI>27. Patient encouraged to attend Weight Management program.

Patient refuses to be seen by Nutrition for counseling and education related to findings of this screen. Patient verbalizes understanding of potential problems arising from this refusal.

Healthy living brochure, which includes information on guidelines for healthy nutrition, importance of regular activity/exercise, and Weight Management class was given and discussed with the patient. Patient verbalized understanding of information.

PATIENT EDUCATION:

Patient had the following needs/barriers identified:

Comment: NO BARRIERS/NEEDS IDENTIFIED

The following people were taught:

Comment: PATIENT

The following actions/teaching methods were initiated as a result of the assessment of special needs or learning barriers;

Comment: VERBAL INSTRUCTIONS, WRITTEN INSTRUCTIONS

The following patient education was provided in ways understandable to the patient. Patient and/or family encouraged to participate in care and care decisions and encouraged to ask questions if they do not understand any information given. Information given and topics covered are:

Comment: PREVENTIVE HEALTH, ADVANCED DIRECTIVES, PATIENT SAFETY

The following handouts were given to the patient:

Comment: veteran's role advance directives

Patients level of understanding was assessed by having patient:

Comment: ANSWER QUESTIONS, ASK PROVIDER QUESTIONS

Level of Understanding: Good

The education followup plan includes:

Comment: PATIENT TO CALL WITH QUESTIONS

Preventive Health Counseling:

Patient had preventative health counseling at this encounter.

Level of Understanding: Good

Patient was given Healthy Living Pamphlet.

Tobacco Use Screen:

Patient is a lifetime non-tobacco user.

GIBBONS, WILLIAM G is a 54 yo MALE, RACE UNKNOWN

Follow-Up Patient Visit: Name: Gibbons, William September 10, 2002
 3209

REASON FOR CONTACT: This gentleman was seen here once before on November 21, 2001 by Dr. Steven Fein, and has had no reason to return until now. He comes in today with complaint of noticing some rectal bleeding on his tissue yesterday, wiping himself following a bowel movement, and then a little bit again later on. He has had external hemorrhoids for years, but never had any bleeding previously. There are no changes in his bowel habits, his appetite is good, and his weight is stable. He has no family history of colon cancer either. He is currently on no prescription medications.

VITAL SIGNS: W 213 H 5'7" BP 130/90 P 64 R 18 T 98.8 (orally)
 PN 0

ALLERGIES: NKA.

PHYSICAL EXAMINATION:

General: The patient is a 54-year-old adult white male, overweight, in no acute distress.

NECK: No carotid bruits and no JVD.

HEART: NS, R&R at 64 per minute, without murmurs, arrhythmias or ectopy.

LUNGS: Clear and well ventilated without any adventitious sounds.

ABDOMEN: Benign. No masses. Normal bowel sounds are heard on auscultation.

LOWER EXTREMITIES: No pretibial, foot or ankle edema on either side.

RECTAL: Some small external hemorrhoids. Internal rectal reveals no internal hemorrhoids and no other rectal masses. Normal size prostate. No blood whatsoever on the gloved finger.

ASSESSMENT:

1. Rectal bleeding, probably benign, secondary to small hemorrhoids, yesterday. Very minute amount.

TREATMENT PLAN:

1. I am going to get some basic fasting labs, as follows: CBC, CMP 14, FLP, TSH, and PSA. He will also be given three heme occult slides to test for occult blood.

2. I encouraged him to get a colonoscopy for complete evaluation, but he is a little reluctant, at least at this point.

3. Return here as needed.

 PC FOLLOW-UP

GIBBONS, WILLIAM G is a 55 yo MALE, RACE UNKNOWN

GIBBONS, WILLIAM
 3209
 10/01/2003

REASON FOR CONTACT: This gentleman was requested by the VA to come back as he has not been here now in more than a year. This basically is his annual follow up. He feels and looks well offers no complaints and is still on no prescription medications. The only insurance he has is through the VA so I am the only primary care physician that he has seen. He would like his blood reevaluated, which we will do another digital rectal exam to recheck his prostate, as his PSA were running between maybe 5.5 and 7.1 on three different readings about a year to a year and a half ago. His brother has normal PSAs .4. Only one uncle had carcinoma of the prostate.

ALLERGIES: None.

PHYSICAL EXAMINATION:

General: The patient is a 55-year-old obese adult white male currently in no acute distress.

VITAL SIGNS:

WT	210 pounds
HT	5 feet 8 inches
BP	110/90
P	72
R	18
T	97.7
PN	0

NECK: Reveals no JVD, no carotid bruits.

HEART: NS, R&R at 72 per minute without any murmurs, arrhythmias, or ectopy.

LUNGS: Clear and well ventilated without any adventitious sounds.

ABDOMEN: Benign.

LOWER EXTREMITIES: No pretibial foot or ankle edema on either side.

RECTAL: Exam reveals some small external hemorrhoids. Internal rectal reveals no internal hemorrhoids or any other rectal masses. Prostate is minimally enlarged, but soft to touch, normal consistence, no lesions, no stony hard areas at all.

IMPRESSION:

1. Normal digital rectal exam with minimal prostate hypertrophy.

** THIS NOTE CONTINUED ON NEXT PAGE **

 GIBBONS, WILLIAM G

MEDICAL RECORD

Progress Notes

10/01/2003 10:35 ** CONTINUED FROM PREVIOUS PAGE **

2. Exogenous obesity.

TREATMENT PLAN:

1. No medications are needed.
2. The following fasting labs are being performed this morning: CBC with differential, CMP 14, FLP, and PSA.
3. Return to see me again in one year.
4. If his PSAs are elevated at 7 or above again, I will give him a referral to urology for them to evaluate him and see if they feel a prostate biopsy is indicated. Probably not.

There were no education barriers noted.

Health maintenance, diet and exercise, along with other healthy living habits were reviewed with the patient and he verbalized understanding.

Medication instructions were reviewed with the patient regarding what they are being taken for, how to take them, and possible side effects with appropriate action to take. The patient was instructed to call the clinic with any adverse side effects.

Action Rx Profile Run Date: FEB 28,2007 Page: 1
Sorted by drug classification for Rx's currently active
and for those Rx's that have been inactive less than 120 days. Site: VAMC

Name : GIBBONS,WILLIAM G ID#: 3209 Action Date: _____
DOB : JAN 30,1948 Address : 194 GARTH ROAD
APT.#4I
SCARSDALE, NEW YORK 10583
Phone : (914)713-4940

WEIGHT(Kg): 95.45 (10/01/2003) HEIGHT(cm): 172.72 (10/01/2003)
DISABILITIES:

ALLERGIES: NKA

ADVERSE REACTIONS:

Instructions to the provider:

- A. A prescription blank (VA FORM 10-2577f) must be used for the following:
 - 1) any new medication
 - 2) any changes in dosage, direction or quantity
 - 3) all class II narcotics.
- B. To continue a medication as printed:
 1. If "Remaining Refills" are sufficient to complete therapy or last until next scheduled clinic appointment, no action is required.
 2. If "Remaining Refills" are not sufficient to complete therapy or last until next scheduled clinic appointment, sign "RENEW/MD" line, enter VA# and date, and circle total number of refills needed. This action creates a new prescription with refills as indicated.
- C. To discontinue a medication, sign DISCONTINUE/MD line and enter VA# and date.
- D. Any medications not acted upon will continue to be available to the patient until all refills are used or until expiration.

NOTE: '(R)' indicates a fill was returned to stock.
